TPO/114/2/I T1 Silver Birch- Tree has previously been reduced and new growth has become approximately 2 metres in length. I would like to apply to prune the tree back to its previously points to maintain the tree's size and also preserve the Tree's health for the future and limb over extension and potential failure. Due to the fast growing nature of Silver Birches I would like to apply for it to be a recurring application to be allowed to prune the tree by 1-2 metres back to the previous pruning points every 2 years.

REFUSED

26/00193 **17 THE SPINNEY BOOKHAM KT23 3PZ**
